External Scheme

MARELLA  
HOMES

Your standard inclusions stay the same, no matter which scheme you choose.

## The Beauty of a Considered Palette

Colour schemes are thoughtfully created combinations of finishes, materials, and colours designed by our interior team to work beautifully together. Each one reflects a different look and lifestyle, from warm neutrals to more modern tones.

By choosing from our pre-designed schemes, you're not losing freedom — you're gaining the confidence that every element will complement the next, without the overwhelm of hundreds of individual decisions. It also keeps your build timeframe and budget on track, since everything has already been tested, priced, and approved to deliver the quality Marella is known for.

It's a smarter, more streamlined way to get a professionally styled home you'll love living in — without the stress of starting from scratch.

Eagle Crest

Irregular Bligh

1. **Roof Tiles** Designer Silver Gum
2. **Eaves** Taubmans Ceiling White
3. **Cladding** Taubmans Whitehouse
4. **Gutter** Colorbond Dover White
5. **Window Frames** Pearl White
6. **Render** Taubmans Eagle Crest
7. **Fascia and Garage Door** Colorbond Dover White
8. **Face Brickwork** Austral Bricks, Silver Birch

**Fresh and composed,** the Cool Light scheme delivers a fresh, composed approach to modern home design.

Soft, cool-toned finishes create a bright and balanced foundation, enhancing the home's sense of **openness and clarity**.

Subtle contrast adds definition without overwhelming, resulting in a façade that feels refined, modern, and effortlessly liveable — ideal for those who value **light-filled spaces with a calm, time-less appeal**.

# How Our External Schemes Work

*The scheme provides the foundation, and the final application ensures the façade is resolved in a way that best suits the home.*

## Facade Pictured:

*Willow Facade in Cool Light.*

Presented on our  
*Merino 17 Design*

Our external colour schemes are thoughtfully curated with a palette of colours and finishes to **guide the overall look and feel** of your home.

While each scheme establishes a clear direction, **the way these colours are applied can vary from façade to façade.**

This flexibility allows us to place finishes where they work best, so each design feels *balanced and intentional*.
